Set-up

Fill base with water or sand for stability. Tabs for ground stakes are located on base for additional stability; ground stakes are sold separately.

1

Open 1st valve on inner tube and inflate. (Hand pump sold separately.)

2

Inflatable column should be about 80% inflated and then assemble with graphic.

3

After graphic is on inflated tube attach the Velcro loop on the graphic with the Velcro hook on the base.

4

Finish inflating tube and zip graphic closed.

5

Stand unit up. Assembly complete.

6

To deflate - pull 2nd valve open.
